28 March 2019

Dear Alumni and friends, we have received many questions regarding the disposition of various items due to the closing of Carson Long Military Academy.

In order to preserve the great history, tradition and legacy of Carson Long, we will be requesting permission from the Pennsylvania Attorney General's Office to donate many items to the two local Perry County historical societies.

It is our joint intention that one day there will be a permanent collection of memorabilia as well as on-line access to documents, photographs, etc. so that anyone who has a connection and interest in Carson Long can enjoy them.

Except for those items that we anticipate will be donated to the two historical societies, all remaining personal property will be placed for sale at the auction. *Please note that anything currently affixed to a building (interior or exterior) or considered a permanent part of a structure will not be included either in the donation or the auction.*

The auction is scheduled for 26 and 27 April 2019 and will be held on campus (with simultaneous online participation) – so mark your calendars for that weekend. Here is a link to the Cordier Auction web site where you can obtain more information regarding the upcoming on-line and in person auction.
